

## UP TO FOUR INPUTS

### TWO COMPUTER or FOUR VIDEO or ANY COMBINATION

**QUADVIEW 2+2**  
Four Window Display Processor

**DUALVIEW 2**  
Two Window Display Processor

**RGB, DVI, HDTV, S-Video,  
NTSC / PAL inputs**

**Inputs to 1920 x 1200 pixels  
Output to 1920 x 1200 pixels**

**Smoothly size and  
position inputs**

**Zoom areas of interest**

**Ethernet and RS-232  
control**

**Web operation**

**24 presets**

**4:3 and 16:9 displays**

**Colored backgrounds**

**Titles and borders**

**RGB/DVI output**

The QuadView<sup>®</sup> 2+2 and DualView<sup>™</sup> 2 display processors provide viewing of multiple video and computer signals on a single screen.

The QuadView 2+2 processor displays up to four signals from ten switched inputs. The user can choose up to any four signals for display from two RGB/DVI/HD and four composite/S-Video inputs, unlike lesser systems restricted to two of each type. In addition, inputs can be displayed at any size and position, either under “click and drag” cursor control or from presets.

The DualView 2 displays two signals from six switched inputs. The user can choose up to two inputs from the available RGB/DVI/HD or composite/S-Video inputs.

Each input can be smoothly panned and zoomed to emphasize areas of particular interest, as well as scaled and positioned anywhere on the screen. Display alternatives are virtually infinite, and include quad split, side-by-side, picture-in-picture, and overlapping windows.

All functions are easily set up and controlled remotely with a command line interface from either the RS-232 or Ethernet ports, or graphically via a web browser using RGB Spectrum’s WCP<sup>™</sup> control system.

Outstanding image quality plus features like web-based control, dynamic window sizing, borders and titling, and smooth pan and zoom, make the QuadView 2+2 and DualView 2 ideal for any application requiring the display of multiple images on a single screen.

Operate all of the processor’s display capabilities remotely from any web browser with the Web Control Panel (WCP). Size and position windows with “click and drag” simplicity.

**Specifications**

**QuadView 2+2**

**DualView 2**

**Input Signals**

Type / Number	2x RGB / Y P <sub>b</sub> P <sub>r</sub> / HDTV/DVI on DVI-I connectors 4x Composite Video 4x S-Video
Resolution	RGB: 640 x 480 to 1920 x 1200 DVI: 640 x 480 to 1600 x 1200 720p, 1080i, and 1080p HDTV
Horizontal scan rate	12 kHz to 125 kHz interlaced or non-interlaced
Frame rate	Up to 200 Hz
Video levels	0.7 V p-p
Sync type	Sync on green, separate composite sync, or separate H-drive and V-drive

Type / Number	2x RGB / Y P <sub>b</sub> P <sub>r</sub> / HDTV/DVI on DVI-I connectors 2x Composite Video 2x S-Video
