- All of the functionality of the SynchroMaster 350 may be controlled from the RS-232 serial port.
- Commands are case insensitive; the upper case characters given indicate the letters required for an abbreviated version.
- Illegal arguments leave the command unchanged and generate proper usage instructions.
- Commands which require arguments will return their current settings when entered without arguments.
- Arguments appearing in square brackets [ ] are optional.
- This reference card is to accompany the SynchroMaster User Manual dated August 7 or August 31, 1998.

Host Commands - Genlock Operation

Command	Arguments	Abbreviation
ClearHostList	(none)	CHL
HOST	<AUTO|LOCK|FREE|DEBUG>	HOST
HostDELete	<1..10>	HDEL
HostInteractive	(none)	HI
HostLIST	<1..27> [<1..27>]	HLIST
HostLOAD	<1..27>	HLOAD
HostName	<name> *(up to 17 characters; no spaces unless enclosed in quotation marks)*	HN
HostSave	<1..10>	HS
HostTiming	<HFP> <HS> <HBP> <HACT> <VFP> <VS> <VBP> <VACT> [<HFREQ> <SYNC> <HPOL> <VPOL> <IL>]	HT

Input Commands

Command	Arguments	Abbreviation
INput	(none)	IN
INput	<AUTO|LOCK>	IN
INputDELete	<1..50>	INDEL
INputInteractive	(none)	INI
INputLIST	(none)	INLIST
INputLOAD	<1..50>	INLOAD
INputName	<name> *(up to 17 characters; no spaces unless enclosed in quotation marks)*	INN
INputSave	<1..50>	INS
INputTiming	<HFP> <HS> <HBP> <HACT> <VFP> <VS> <VBP> <VACT>	INT

Input Size and Position

Command	Arguments	Abbreviation
AspectRatioTrim	`<500..2000>`	ART
DestRectangle	`<x> <y> <width> <height>`	DR
RDR	(none)	RDR
RSR	(none)	RSR
SourceRectangle	`<x> <y> <width> <height>`	SR

Image Controls

Command	Arguments	Abbreviation
BRIght	`<-500..500>`	BRI
CONTrast	`<88..118>`	CONT
FreeZe	`<ON|OFF>`	FZ
GAMma	`<0.5..2.0>`	GAM

Switching & Fading

Command	Arguments	Abbreviation
FadeTime	`<0.1..20.0>`	FT
FADE	`<1|2|B>`	FADE
SWItch	`<1|2|B>`	SWI

Serial Port Functions

Command	Arguments	Abbreviation
BAUDrate	`<1200|2400|4800|9600|19200|38400|57600|115200>`	BAUD
ECHO	`<ON|OFF>`	ECHO

Miscellaneous

Command	Arguments	Abbreviation
DEMO	(none)	DEMO
FrontPanel	`<ON|OFF>`	FP
Help	`[<command_name>]`	H or ?
ID	(none)	ID
RestoreFactoryDe-faults	(none)	RFD
