

Webinar Announcement “Transforming Mobile Command-and-Control”

Unveiling the RGB Spectrum IPX Flyaway Kit with Dejero

Alameda, California – November 8, 2024 – [RGB Spectrum®](#), a leading designer in mission-critical video for real-time decision support, is hosting an informational webinar with partner Dejero on Tuesday, November 12th at 12 pm MT. The webinar “**Transforming Mobile Command-and-Control: Unveiling the RGB Spectrum IPX Flyaway Kit with Dejero**” will provide a comprehensive look at the new display and communication kit design in a hardened, transportable enclosure, making it ready for immediate deployment anywhere needed. It’s your mobile command center for on-the-go operations.

Join Us for an Insightful Webinar on the IPX Flyaway Kit

What: Transforming Mobile Command-and-Control: Unveiling the RGB Spectrum IPX Flyaway Kit with Dejero

When: Tuesday, November 12, 2024

Time: 12:00-1:00 PM MT

Where: [Online](#)

Overview:

RGB Spectrum, in collaboration with Dejero, invites you to an insightful webinar exploring the revolutionary **IPX Flyaway Kit™**, a state-of-the-art mobile command center designed for public safety and defense applications. This engaging session will delve into how the *IPX* Flyaway Kit integrates advanced video processing and ultra-reliable connectivity to enhance situational awareness in the field.

During the webinar, attendees will discover the key features of the IPX Flyaway Kit, including its rugged design, real-time video capabilities, and secure wireless communication features. Additionally, we will discuss Dejero’s Smart Blending Technology™

and how it complements the *IPX* Flyaway Kit by providing seamless connectivity in the most challenging environments.

Who Should Attend:

This webinar is ideal for public safety, defense, security and emergency management professionals looking to leverage cutting-edge technology for effective command-and-control operations.
